Description

Thin flex hand pads cut fast and saves time and are ideal for contoured surfaces and getting into tight spaces. They can be used for a broad range of applications from cleaning and finishing to deburring and light polishing operations on wood, metal and car body repairs.

Features & Benefits

Thinner special coated web design cuts fast and saves time

Thinner than standard BearTex, when greater precision is needed.

Flexible and durable, for use on contoured surfaces and hard to reach areas.

Ultra flexible so conforms even better to contoured surfaces for an ultra consistent scratch pattern

Ideal for getting into tight spaces as pads can be scrunched and rolled

Advanced web formation provides superior grain adhesion, durability and product life

Ideal for woodworking, metalworking, maintenance operations as well as car body repair.
