Description

The Rapid Strip is to be used for general purpose when removing coatings and the open web construction provides an aggressive cut without loading. Use before and after welding for preparing and cleaning the surface.

Features & Benefits

General purpose, for removing coatings

The nylon fibre composition of the wheel, which is impregnated with abrasive, gives Rapid Strip wheels flexibility so they do not gouge the work surface

Cleans surface thoroughly for excellent adhesion of coatings, painting and soldering

Ideal for corners and tight spaces

Extra-coarse abrasive grain for aggressive performance

Good material removal for applications where less pressure is required

Anti-loading even on sticky coatings, adhesives, and soft metals
