

Norton Clipper CT901 HP Power Float Surfacing Petrol 4 stroke Norton Clipper CT 901 HP

Artical Number: 70184602675

EAN: 5450248736394

SizeDerived:

Description

The CT901 HP is a 4 blade walk behind power float, specifically designed for professional contractors who are finishing wet concrete floors in both residential and commercial buildings. As with all Norton Clipper products, this machine is manufactured using only the highest quality components and to impeccable standards of assembly. This ensures that the CT901 HP power float benefits from a long life and a minimal requirement for maintenance, thus the product lifetime costs are low. The guard rings have been configured to guarantee the best possible visibility of the concrete surface at all times and the mechanical blades also have a pitch control function to help improve overall accuracy. Most notably, this machine also features hydraulic pitch control for the blades, which affords the operator a greater level of control than mechanical pitch systems and helps to achieve a perfect surface finish.

Features & Benefits

The hydraulic blade pitch control offers a great comfort of use

Application Data

Material Application:	Asphalt & Green Concrete
Machine:	Power trowel
Process:	Surfacing

Equipments:

Technical Data
