

SUPER·CUT

GLASS AND CERAMIC DIVISION

Diamond Hand Pads

Super-Cut diamond hand pads available in the patented Telum interlocking arrow pattern or the Flexis conventional dot pattern.

Telum's unique flexible design of plated diamonds distributed in an interlocking arrow pattern gives the product superior grinding performance:

- Longer tool life
- Rapid stock removal compared to the standard dot pattern

In cases where finish is more important than stock removal or life the Flexis dot pattern is preferred.

Super-Cut Diamond hand pads are specifically designed for glass applications and are color coded in 5 different diamond mesh sizes.

Description	Colour	Grit
Telum-170 90x55	Green	60
Telum-170 90x55	Black	120
Telum-170 90x55	Red	200
Telum-170 90x55	Yellow	400
Flexis - 90x55	White	600
