

ZIRCONIA ALUMINA
R840P SANDING BELTS

The Original Blue Belt Gets Even Better with 20%+ Improvement in Metal Removal Rates

The Norton BlueFire belt is infused with a proprietary grain technology alongside our strongest backing to-date.

That means, you have a better choice for heavy-pressure applications on gray and cast iron; cast, mild, and tool steels; and aluminum with exceptional cutting efficiency that outlasts conventional zirconia products.

TARGET INDUSTRIES

- Pipe upset
- Foundry snagging

TYPICAL R840P APPLICATIONS (WET OR DRY)

- Offhand grinding and blending
- Centerless
- Platen
- Plate
- Swingframe

NORTON
SAINT-GOBAIN®

FEATURES & BENEFITS

- Proprietary new self-sharpening zirconia alumina grain shape and chemistry results in higher cutting efficiency and lower force, provides rapid cut, less power draw, longer life, and 20% improvement in MRR (metal removal rate)
- Durable grain coating provides strong grain base adhesion, longer life
- Our strongest backing, waterproof H-wt polyester, excel on cast, mild, and tool steels, making it the better choice for heavy-pressure applications
- Available in 24 – 80 grit range in close coat design
- Bright blue grain side and R840P backprint easily identifies better performing product

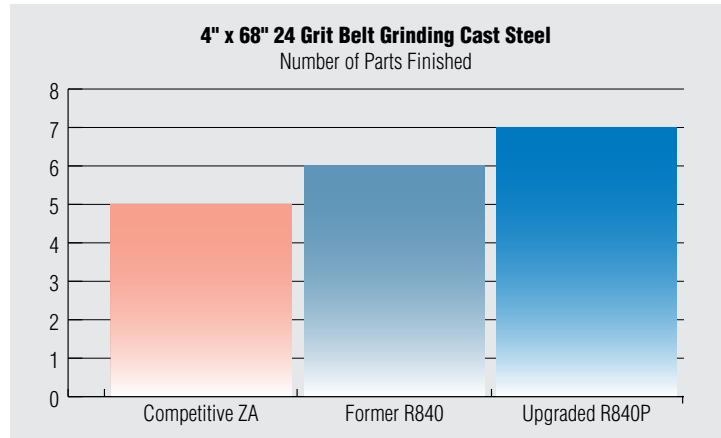

AVAILABILITY

BlueFire R840P part numbers remain the same as former NorZon Plus R840P part numbers.

R840P Made-to-Order Belts

All R840P belts are made to your custom requirements.
Contact your local Norton representative for availability and quotation.

BENCHSTAND	1" to 6" wide, 36" to 72" long
BACKSTAND	3" wide, 132" long
WIDE AND SECTIONAL	Product Management will review your required dimensions
