

## STACKABLE DIAMOND BENCHSTONES

# Must-Haves in Every Workshop That Stack Up Above the Competition

Our new Norton precision, flat diamond benchstones are stacked in your favor! Made in USA, these benchstones have unique stackable non-skid rubber feet designed to keep the diamond plate steady while you sharpen, and efficiently stacked for space-saving storage when not in use. Our simple grit-size color-coding makes them easy to differentiate.

# STACKABLE DIAMOND BENCHSTONES

## FEATURES & BENEFITS

- Quality industrial diamonds and workmanship made in the USA
- Flat, diamond surface plated onto a nickel-coated steel bar precision ground to a tolerance of .001" for fast, even blade and tool edge sharpening
- Even diamond distribution; continuous diamond sharpening surface for excellent sharpening performance across entire surface of stone
- Quicker sharpening than conventional interrupted surface diamond stones
- Pointed tools will not snag, as on interrupted surface diamond stones
- Available in 3 grit sizes: 600 (green), 325 (blue), 220 (red) and 2 sizes: 6" and 8" Ideal for all your large and small tool sharpening and finishing needs
- Color-coded tabs on stones and packaging for easy identification of grit sizes for use and displaying
- Stackable; the stones firmly stack on top of each other to provide easy, small-profile storage
- Non-skid rubber base stays in place while sharpening for smoother, efficient sharpening

## STACKABLE DIAMOND BENCHSTONE STOCK AVAILABILITY

Made in the USA, these benchstones have unique stackable non-skid rubber feet designed to keep the diamond plate steady while you sharpen, and efficiently stacked for space-saving storage when not in use. Our simple grit-size color-coding makes them easy to differentiate.
