

# ProSand®

Transforming  
surfaces  
...and beyond

PREMIUM SANDING SHEETS.

## TOUGH. DURABLE. LONG-LASTING.

Next generation 3X technology.

The world's best sandpaper just got better.

### FEATURES & BENEFITS

- Premium heat-treated abrasive offers faster cut and longer sanding life than 3X technology. Heat treating toughens the grain allowing it to stay sharp and last longer under extreme pressure, making it the most durable abrasive on the market. Super sharp edges allow grain to remove material faster.
- Increased backing weight. Fiber reinforcement and latex saturation offer better grain retention with higher flexibility for easy folding and unfolding without tearing.
- Non-pigmented, waterbased stearate, anti-clog (No-Fil) open coat design. Anti-clog provides best resistance to premature loading during sanding.
- No color dye in coating process so there is no chance of color transfer to work piece.
