

## BEYOND THE FINISH LINE – PERFECTION FOR COMPLEX PROJECTS

Take your next project beyond the finish line with Norton Vortex Rapid Prep non-woven file belts. Vortex Rapid Prep belts make it easier than ever to accomplish a desired finish when working tight, intricate, or complex workpieces. The unique high-performance abrasive blend cuts like a coarser grit size, delivers faster cuts, and finishes like a finer grit on all metals, putting time back into your production line. Operators will enjoy a better ergonomic feel with the extra flexible, heavy-duty resin system during cleaning, blending, or finishing applications. Featuring Clean Bond technology, which removes that extra step in smear clean-up, these belts will improve productivity and help put money back in your pocket.

**KEY INDUSTRIES:**

AEROSPACE | MRO | STAINLESS STEEL | AUTOMOTIVE

**KEY APPLICATIONS:**

CLEANING | BLENDING | WELD PREP | FINISHING

**CLEAN  
BOND**<sup>®</sup>  
TECHNOLOGY

No need to flex your muscles with our hard-working extra conformable belts.

**FEATURES & BENEFITS**

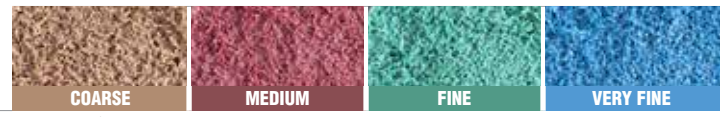

- Longer life and improved finish over traditional aluminum oxide products from our unique ceramic blend of grain that cuts like a coarser grit size and finishes like a finer grit - while delivering a fast cut!
- Our proprietary Norton Clean Bond resin system delivers a smear-free, crisp-clean finish and improves productivity for lower overall manufacturing costs
- Extra flexible body for exceptional conformability and easy mounting and tool operation
- Versatile; can be used safely in combination with coolants or in dry applications
- The offering contains a wide array of size and grits for every application
