

FASTER CUTTING AND CONSISTENT BLADE SHARPENING

Norton Abrasives is excited to introduce our new Hand Scraper and Sharpening Kit. This new hand scraper design comes with a custom sharpening jig which provides a super sharp and consistent blade while eliminating the dangers of sharpening with a file by hand.

The ergonomic handle provides a comfortable feel and its flex allows for maximum scraping capacity. When the blade needs to be sharpened just attach it to the guide rod of the sharpening jig and after a few passes you are ready to go.

The kit comes with two handles and two blades (one 3/4" and one 1-1/2"). Replacement blades are sold separately.

We are confident you will find the new Hand Scraper and Sharpening Kit provides a faster cutting and more consistent blade saving you time and more importantly eliminating the dangers of sharpening by hand.

Norton Hand Scraper & Sharpening Tool Kit – 66261170592 9

Contains:

- Two Scraper Handles
