EXTRA STRONG

# Pleased to meet you,

We have been in the Market since 2002 with headquarters in 'Embu das Artes', Sao Paulo, Brazil. Tekbond is a company specialized in the production and import of several products such as: instant adhesives, sealants, chemical locks, silicones, among others. Tekbond offers products which involve domestic and industrial use, supporting many different market segments, such as home building, industrial, handcraft, furniture, construction, automotive and has consumption. The company's sustainable growth by establishing solid partnerships and the continuous development of new products.

## Mission:

Provide reliability to its customers on the application of adherence, fastening and sealing.

## Vision:

Be the adhesive company that better understand customers, representatives and distributors' needs.

## Values:

Focus on the customer, quality, transparency, and stakeholders' appreciation, respect physical and social environment.

# BONDS THAT LAST

## Silicones

### Acetoxy Silicone - General Purpose

Tekbond Acetoxy Silicone General Purpose is a sealant based on silicone polymer, single component, low modulus, acetic cure with general purpose anti-fungal. Is a multipurpose product developed to seal with excellent performance.

#### GENERAL PURPOSE

Product	Application	Color	Packing	Tackfree Time(min)	Working Temperature (°C)	Hardness (Shore A)	Elongation (%)	Tensile Strength	Depth of curing (after 24 hours)
Acetoxy GP	Ceramic,tiles,porcelain,glass,aluminium, plastics,laminates and wood	White, Black, Grey, Clear. Other colors are available.	280 ml	≤ 5	-40 + 200	19	850	0.8	2.5 mm

### Neutral Silicone - General Purpose

Tekbond Neutral Silicone General Purpose is a neutral cure product with low modulus. It can be applied on porous, non-porous and corrosive metal substrates. It resists temperatures between -50°C and 150 °C.

#### LOW ODOR

Product	Application	Color	Packing	Tackfree Time(min)	Working Temperature (°C)	Hardness (Shore A)	Elongation (%)	Tensile Strength	Depth of curing (after 24 hours)
Neutral GP	Glass,aluminium,plastics,laminates, granite,wood,steel,stainless, composite materials, concrete,cement sheeting , ceramic,tiles and bricks.	White, Black, Grey, Clear. Other colors are available.	270 ml	5	-50 + 150	24	755	0.9	2.5 mm

### Neutral Silicone - Bathroom & Kitchen

Tekbond Bathroom & Kitchen Neutral Silicone is a neutral cure product developed for sealing and waterproofing. Resists temperature variations, water, marine oxidation and cleaning products. Used to prevent water infiltration, seal partitions and aluminum structures also in wet areas.

#### MILDEW AND MOLD RESISTANT

Product	Application	Color	Packing	Tackfree Time(min)	Working Temperature (°C)	Hardness (Shore A)	Elongation (%)	Tensile Strength	Depth of curing (after 24 hours)
Neutral Bathroom & Kitchen	Ceramic,tiles, porcelain, glass, aluminium ,plastics,laminates,granite,wood,steel, stainless,composite materials,concrete, cement sheeting and bricks.	White, Black, Grey, Clear. Other colors are available.	270 ml	5	-40 + 200	18	380	0.72	2.9 mm

### Neutral Silicone - Weatherproof

It has excellent weathering and aging resistance properties and has passed strict accelerated aging test. It is ideal for buildings, windows, glasses and curtain wall weatherproof sealing. Sealing of outdoor construction equipments.

#### EXCELLENT FOR OUTDOORS

Product	Application	Color	Packing	Tackfree Time(min)	Working Temperature (°C)	Hardness (Shore A)	Elongation (%)	Tensile Strength	Depth of curing (after 24 hours)
Neutral Weatherproof	glass, aluminium, plastics, laminates, granite, steel, stainless, composite materials,concrete, cement sheeting, bricks, Ceramic, tiles,	White, Black, Grey, Clear. Other colors are available.	280 ml	≤ 40	-40 + 200	44	750	2.1	3.5 mm

## Acrylic Sealants

### Acrylic Adhesive for Cracks and Crevices

Single component, solvent free, multipurpose and odorless crack sealer acrylic adhesive. Filling and edging of kitchen and bathroom, Environmentally friendly with good mold resistance. Indicated for use in any type of joints and cracks, baseboards, plaster cracks and wooden furniture. It has excellent resistance to temperature variations and can be painted once dried.

#### ANTI - FUNGAL

Product	Application	Color	Packing	Tackfree Time(min)	Working Temperature (°C)	Hardness (Shore A)	Elongation (%)	Tensile Strength (Mpa)
Acrylic adhesive for cracks sealing	Ideal for furnitures, baseboards, door jambs, plaster parts , and more	White	425g	30	-20 + 80	66	200	0.25

### Painter's Caulk - Acrylic Sealant

Single component, solvent free, multipurpose and odorless acrylic sealant. Fast curing for repairs and applications with limited time schedule. Indicated for sealing and caulking around door and window frames, fill gaps and cracks in masonry, brickwork, plasterboards and other construction substrates, indoor and outdoor. Flexible, and prevents cracks from resurfacing with vibrations. After drying, it can be sanded and painted. Suitable for sealing air ducts lap joints.

#### WATER BASED

Product	Application	Color	Packing	Tackfree time(min)	Working Temperature (°C)	Hardness (Shore A)	Elongation (%)	Tensile Strength (Mpa)
Painter's Caulk Acrylic Sealant	Sealing and caulking of windows and door frames. Gap filler for building materials, plastered parts and more.	White Grey Black	475g	7	-20 + 80	47	210	0.25

## Fix Sink

It is a high performance adhesive with antifungal properties designed to install sinks and tubs. Resistant to bad weather/environment conditions indoor and outdoor, it can be used at home building and decoration markets. It has excellent performance at metal, concrete and stones gluing. Can be used to seal and bond in construction with structural requirements.

#### EXTRA - STRONG

Product	Application	Color	Packing	Tackfree time(min)	Elongation (%)	Working Temperature (°C)	Hardness (Shore A)	Depth of Cure (after 24h)
Sink Fix Grey	Stainless steel sinks on marble, stone , granite, wood, or concrete countertops. Delivers safe and quality results.	Grey	Cartridge 380g	20 to 60	> 750%	-50 to +200	40	3mm
Sink Fix White		White	Tube 85g					

# BONDS THAT LAST

## Easy Nail

Easy Nail Tekbond is a high resistance and practical adhesive. It efficiently replaces nails and bolts.

### WATER RESISTANT

Product	Application	Color	Packing	Initial Cure	Working Temperature (°C)	Shear Strength (MPa)
Easy Nail (Solvent)	It fixes frame, panel, wainscot, glazed tile, skirting, tile and other porous surfaces. It is recommended for internal applications. It can be used at several materials such as wood, metal, glass, cement, cork, brick, stone, glazed tile, among others.	Beige	85g / 300g	5 to 20	-30 +70	0.2
Easy Nail Maxx (Solvent)	Easynail but with Maxx performances, faster and stronger.	Beige	300g	5 to 10	-30 +70	1.5
Easy Nail Water Based	It is recommended for more delicate materials like polystyrene, mirrors, among others. After dried it can be painted. Ideal for internal and external environments.	White	140g / 420g	≥20	-20 +90	3.2

## MS Hybrid

It is a very strong adhesive, flexible with no smell, which has an extraordinary resistance to UV rays, it dries even under water and can be painted after dried. Recommended to several types of materials: stones, marble, concrete, glasses, mirrors, wood, among others. It does not have isocyanates, which means it is not harmful to health or the environment. Due to its stretching and adherence power at different types of materials, the product closes and seals with high performance, and can be used at different areas, such as industry, home building, metallurgy, automotive, among others.

### EXTRA STRONG

Product	Application	Color	Packing	Tack Free (Min)	Working Temperature (°C)	Hardness (Shore A)	Elongation (%)	Depth Cure (after 24 h)
MS Hybrid	Bonds and Seals with elasticity. It can be used to fix panels, wood plates, cork, frames, insulating boards, MDF particle boards, brick, concrete, metals, stones, mirrors and acoustic panels. Cooling systems, heating and ventilation. Closing and sealing panels at railway carriages, containers and truck bodies.	Diff. Available	400g/250ml (Cartridge) 845g/528ml (Sachet)	11	-20 +120	35 to 40	>600%	3 mm
