AERO-JET DIAMOND BLADES

The unique appearance of Aero-Jet is the result of extensive research to develop a fast, smooth cutting diamond blade in hard materials. Each unique feature, often available separately on other blades, works together on Aero-Jet for unbelievable results!

NEW AND IMPROVED!

- A .392" impregnated diamond segment offers a longer life, smoother finish and faster cutting whether cutting dry or wet hard materials
- Large arch shaped drop-down segments provide steel core protection for reduced wear, and a larger diamond surface for smoother edge finish
- Segment formulation provides exceptional cutting on a wide variety of materials with highest quality cut finish
- Ventilated steel center with cooling holes reduces heat when cutting

Recommended Materials to Cut

Granite Natural Stone Block Concrete

- Recommended - Ideally suited for this application
- Acceptable - Either the blade life or cutting speed could be affected

Natural Stone & Tile

Ceramic and stone tiles, granite, marble, very hard bricks and other very hard and dense materials.
