world.

FAST & TOUGH MEETS SMALL AND MIGHTY

NOW WITH THE BEST TIER BLAZE AND A NEW UPGRADED BETTER BLUEFIRE TIER

- An ever-changing workforce is demanding smaller, ergonomically-friendly tools that require less effort, while delivering better results.
- Save time, labor, and money. Norton mini-flap discs eliminate the conventional.
- 2-step grinding/finishing process of depressed center wheels and fiber discs.
- Test anywhere a quick-change disc is used; mini flap discs provide longer life.
- Great 2-tiered performance/price level mini flap disc line in the market today.

KEY MARKET SEGMENTS

SAINT-GOBAIN

FEATURES & BENEFITS

- Durable, Y-weight polyester flaps improve life, grain retention and fray resistance; they wear away evenly, producing an aggressive cutting action while providing blending capabilities
- High-strength plastic back is lightweight and absorbs vibration

NORTON BLAZE

- Latest-generation ceramic alumina abrasive provides 50-200% longer life vs. any flap disc on stainless, titanium, and super alloys
- Supersize grinding aid provides a cool, noticeably faster cut rate

Key Accounts

- Food processing equipment and machinery
- Pressure vessels, ship containers
- Surgical/medical/distilling equipment
- Aerospace

2" and 3" TR (Type III)	30,000	1	088341 64922

TECH TIP

While Norton mini flap discs are the ideal choice for jobs requiring longer life products, Norton quick-change discs should be considered when fast initial cut is needed.
