CTC1020XL
10" TILE SAW

Built with the professional in mind, the CTC1020XL has a powerful 2HP motor that makes ripping materials, up to 24", trouble-free. The combination of having a light-weight, sturdy frame and a newly designed polypropylene pan, to help reduce area contamination, gives an operator all the essentials to get the job done quickly and efficiently.

CTC705
7" TILE SAW

For the small to medium size jobs, the 7" tile saw is a great value. Packed with many features of more expensive tile saws, like a belt-driven 1 HP motor for maximum motor-to-blade power. A sturdy aluminum cutting table with anti-skid top for keeping material in place while cutting and a light-weight water pan for easy cleaning and/or single operator use getting on and off the site.

CTC1020XL
10" TILE SAW

2HP Motor

More powerful than using conventional 1.5HP and can make a rip cut of 24" tile.

Light-Weight

60 lbs vs. standard 100-125 lbs for easier transportation.

Aluminum Rails with Stainless Insert

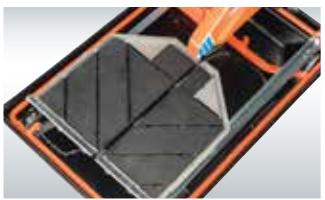

Provides long life and easy portability due to low coefficient of friction, creating smoother slide.

CTC705
7" TILE SAW

Motor Upgrade

Strong belt-driven 1 HP motor provides powerful and precise cutting.

Light-Weight Conveyor

Smooth slide creates straight cuts and has a locking mechanism for easier transportation.

Water Pump

High intake and output to keep fresh water in pan with a durable filter to keep debris out.
