BDXTM

New range of flap discs for low & medium pressure applications.

Norton has a global reputation for its high quality and job focused abrasive products, and the new BDX flap discs are no exception.

With zirconia grain specially developed for use in flap discs, providing greater aggression and fast stock removal.

Together with improved cloth backing for better strength, flexibility and wear resistance, new BDX flap discs provide the ultimate grinding solution for all applications where price is the consideration.

FLAP DISC RANGE

The unique zirconia grain has self-sharpening properties with controlled grain fracturing continuously producing sharp, new abrasive points.

This provides long life on even difficult to grind materials including steel and stainless steel, as well as softer metals like aluminium.

FLAP DISC RANGE	SIZE (mm)	GRIT	PACK QTY	PART NO.	MAX RPM	BARCODE
100 x 16.0		P40	10	78072760000	15,300	9310357290681
		P60	10	78072760001		9310357291114
		P80	10	78072760002		9310357291121
		P120	10	78072760003		9310357291138
