SAINT-GOBAIN

Norton Amber A293 Sanding Discs Provide A Premium Performance Without The Premium Price.

The design is optimised for dry sanding with an anti-clog, water-based stearate coating engineered to extend product life for fewer disc changes. Using a premium, sharp-shaped aluminium oxide abrasive and a durable, yet flexible, latex paper backing makes Norton Amber products ideal for use on a broad range of substrates, including primed or painted surfaces, wood, composites, aluminium, and ferrous metals.

FEATURES & BENEFITS

- P-graded premium aluminium oxide abrasive produces a quick, cool cut and a more consistent surface finish
- Flexible B wt. latex/paper backing resists tearing while staying conformable and flexible to the workpiece
- Water-based, non-loading (No-Fil) coating resists clogging and increases disc life
- Hook & loop Speed-grip backing means quick and easy disc changes when doing multiple sanding steps

FEATHER EDGING | SANDING PRIMERS | STRIPPING OLD PAINT | DRY SANDING PLASTIC & PUTTY
