Versatile and long lasting

SAINT-GOBAIN

The strong polyester film backing on **Norton Azure Q216 Film** discs provides strength and versatility with the flexibility to conform to contours and uneven surfaces.

These premium, aluminium oxide/ceramic* abrasive blend and water-based stearate discs sand flat, resist loading, last longer, and cut consistently for maximum productivity with a uniform, precise finish.

The new range of film backed discs from Norton are not only tough and hard wearing, but also reduce clogging and dust build-up in all sanding applications, including primed or painted surfaces, wood, composites, aluminium, and ferrous metals.

FEATURES & BENEFITS

- P-graded premium aluminium oxide/ceramic* abrasive blend produces a quick, cool cut and a more consistent surface finish
- Strong film backing resists tearing and outlasts paper, making them more durable and longer lasting
- Water-based, non-loading (No-Fil) coating resists clogging and increases disc life
- Hook & loop Speed-grip backing means quick and easy disc changes when doing multiple sanding steps

OPTIMAL DURABILITY

Size: 150 mm Pattern: 14+1 hole

Grit Size	Part No.	Box Qty
P80	63642598779	100
P120	63642598780	100

P1200	63642598790	100
P1500	63642598791	100

Flexible Film Back

Resistant to tearing and provides a consistent scratch pattern reducing rework

Anti-Clogging

No-Fil® layer prevents dust build-up during sanding for longer disc life

Fast Cut Rate

The sharp aluminium oxide grain provides a fast cut rate to reduce cycle times

Small Changes, Big Impact

Sustainability is at the core of what we do and we have clear commitments toward our goal: **MAKING THE WORLD A BETTER HOME!**
