# SuperFlexible Film Q775

SUPERIOR FLEXIBILITY FOR  
THE ULTIMATE FINISH

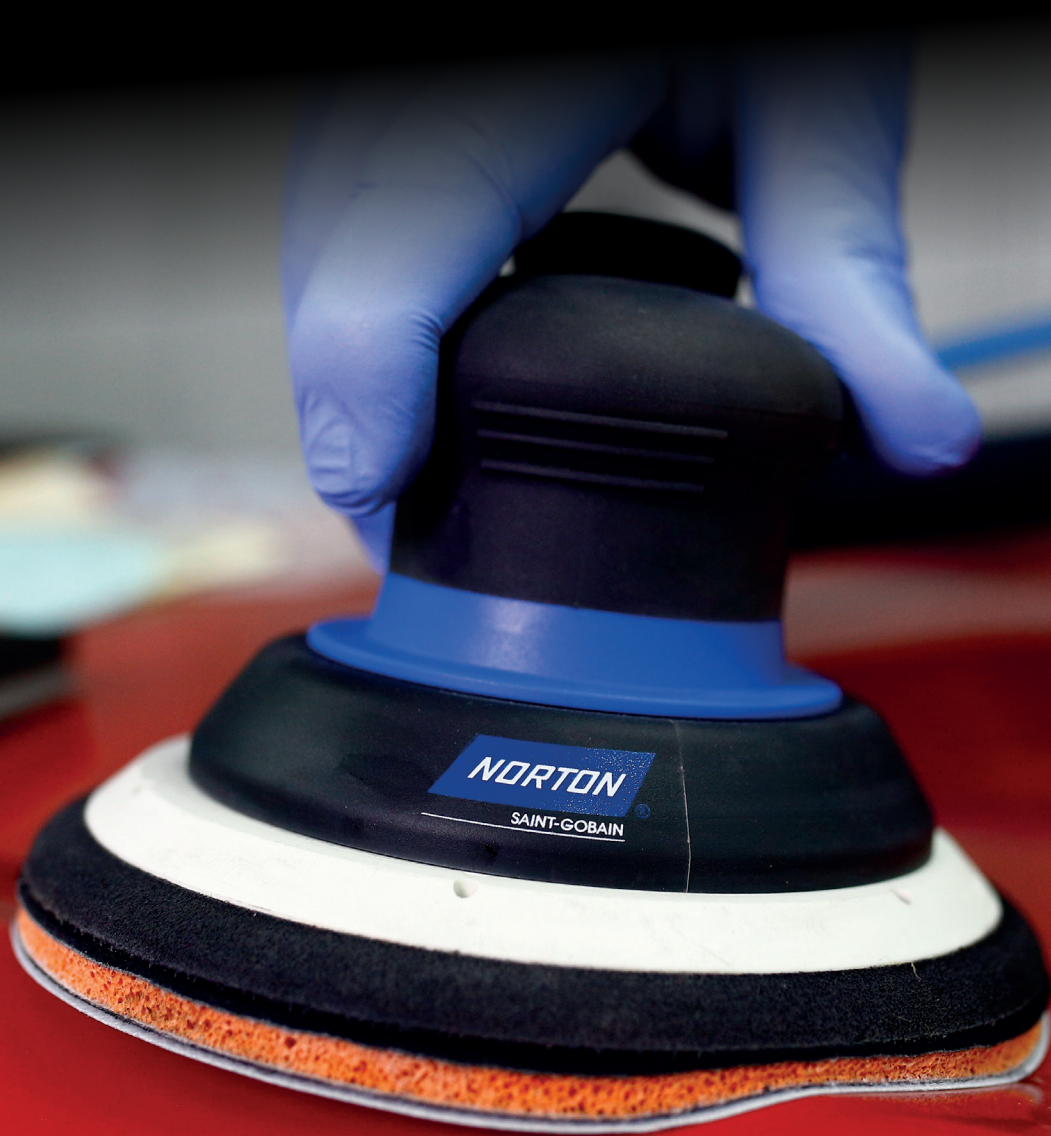

# NORTON

SAINT-GOBAIN

## The best solution for surface finishing

Norton SuperFlexible Film Q775 discs and sheets provide **uniform defect removal** regardless of surface curvature. Ideal for **fine smoothing** on curves and contours, they deliver excellent cutting performance with added flexibility and conformability for an **even more uniform finish**.

Designed to provide productivity in a variety of applications, SuperFlexible Film produces a semi-polished finish that is quick and easy to buff for a faster, **cleaner and more efficient workflow**.

# FEATURES AND BENEFITS

- **Flexible film bonding** for consistent scratch pattern and homogenous finish
- **Ultra-sharp abrasives** for excellent cut performance
- No-Fil® coating for less loading and extended product life
- Colour coded grits for easy use
- Use wet or dry
- Machine or hand sanding

# APPLICATION TABLE

GRIT / COLOR		PAINT PREPARATION	PRE-BUFFING
P600	Turquoise	Primer sanding and blending prior to base coat application	-
P800	Citrine		-
P1200	Amber	Clear coat sanding and blending	Heavy duty orange peel removal
P1500	Rose		Orange peel/defect removal
P2000	Jade	Ultrafine clear coat smoothing for mirror finishing	Polishing preparation (reducing surface roughness)
P3000	Meteorite		

## NORTON APPLICATION TIP

For manual application remember to use the finer grit size (P800 disc ≥ 1200 sheet)

## NORTON EXPERTS RECOMMENDATION

for small defect/orange peel removal:

**Step 1:** Use Norton Q175 to remove the defect. Q175 cuts through the surface, removing imperfections and making it flat.

**Step 2:** Use Norton Q775 to reduce the scratch pattern left by the coarser grit of Q175 and provide a smooth surface ready for polishing.

## Norton SuperFlexible Film is best used when:

- Denibbing (1200/1500)
- Blending
- Paint prep
- Bumper scuffing
- Primer blocking and scuffing
- Sanding edge panels
- Light scuffing on base coat
- Sanding primer
- Sanding door jambs
- Paint finishing

## Can be used wet or dry!

Using dry will allow the technician to see while sanding. Wipe frequently to extend the life of the abrasive product.

Using wet will reduce loading while extending the life of the product.

## NORTON SUPERFLEXIBLE FILM Q775

GRIT / COLOR		170 x 130mm - PRE-CUT SHEETS	150mm - 15 HOLES DISCS	PK QTY	BOX QTY
<b>P600</b>	<b>Turquoise</b>	 66623390551	 78072723111	25 pcs	100 pcs
<b>P800</b>	<b>Citrine</b>	 66623390552	 78072723112	25 pcs	100 pcs

<b>P3000</b>	<b>Meteorite</b>	 78072723120	 78072723118	25 pcs	100 pcs

When only the perfect finish is required, Norton offers a practical family of products and accessories that improves the total quality of work and assures quick buffing to a defect-free finish.

## FOR EVEN BETTER RESULTS, TRY OUR PADS

PAD	DIMENSIONS	ART NO	PK QTY	APPLICATION
SOFT INTERFACE	 150mm - 15 holes	63642567840	6 pcs	Machine sanding and blending
SOFT SANDING PAD	 122 x 75mm	78072742353	8 pcs	Manual sanding of hard to reach areas
RIGID/SOFT SANDING PAD	 122 x 75mm	78072742355	4 pcs	Manual sanding of larger areas

All three pads are made using very soft foam and Norgrip Duo system.

The gripping structure reduces scratches & resists peeling, reducing the need to change the backing pad frequently.
