

NORAX[®] N889 MICRO-STRUCTURED ENGINEERED ABRASIVE BELTS

NEXT GENERATION NORaX BELTS OFFER IMPROVED PERFORMANCE

THE PRECISE FLEXIBLE DESIGN FOR CONSISTENT, FINE FINISHES

Drive cost out of your finishing processes with Norton NORaX N889 micro-structured engineered belts. The engineered abrasive layer wears away consistently exposing new, sharp, abrasive grains providing longer belt life, higher quality finish, faster cut rate, and an ability to skip finishing steps. The flexible J-weight backing easily conforms to complex contours for a superior, high quality finish.

KEY MARKET APPLICATIONS

PROSTHESIS, MEDICAL AND SURGICAL EQUIPMENT | PLATE AND POLISH | MARINE PROPELLERS
AUTO AND MOTORCYCLE PARTS | SINKS AND FAUCETS | GENERAL METAL, CHROME, NICKEL, AND STEEL

NORAX[®] N889 ABRASIVE BELTS

- Fine 3D pyramid pattern wears away consistently, exposing sharp abrasive grains to prolong cutting performance, lasting 2-5X longer than conventional polishing belts
- High, consistent cut rate throughout the life of the belt compared to previous generations
- Quickly removes scratches and part defects, eliminating steps from your polishing process
- Engineered, high-performance micron-graded aluminum oxide abrasive prevents wild scratches and produces a more repeatable, consistent finish from the first to the last part
- Very flexible J-weight backing conforms to intricate part contours

Made-to-order to meet your specific requirements.

 **GRAIN:** Aluminum Oxide
  **BELT WIDTHS:** 0.25" to 9"
  **BELT LENGTHS:** 11" - 168"^{**}
  **GRIT:** X6, X16, X22, X30, X45, X65, X80, X100
  **BACKING:** J-weight
