SAFETY RECOMMENDATIONS FOR THE USE OF DIAMOND SAWS FOR ANGLE GRINDERS

PASS ON THIS LEAFLET TO THOSE USING "DIAMOND SAWS".

The recommendations contained in this leaflet should be followed by all users of abrasive products in the interest of their personal safety.

GENERAL PRINCIPLES OF SAFETY

Diamond saws improperly used can be very dangerous.

This leaflet focuses on "diamond blades" for angle grinders. It only covers straight cutting.

This leaflet applies to diamond saws used on angle grinders (not petrol saws).

This leaflet applies to flat diamond saws: segmented and continuous rim.

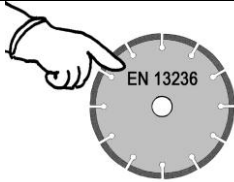

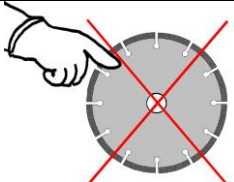

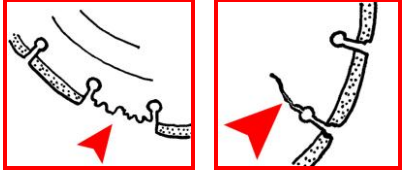

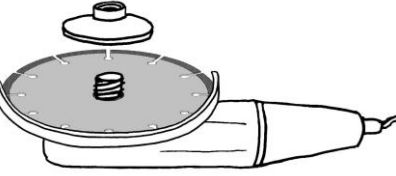

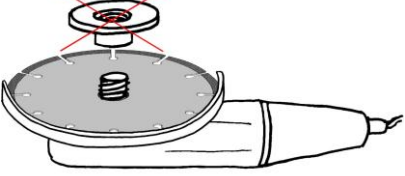

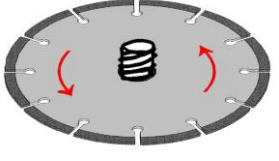

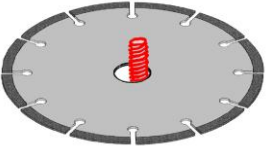

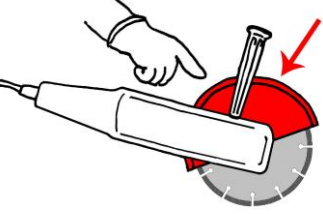

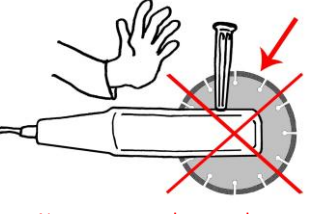

IMPORTANT NOTICE

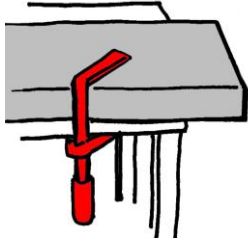

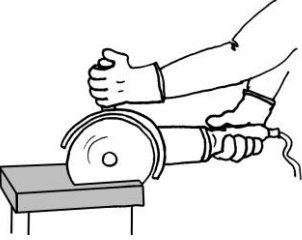

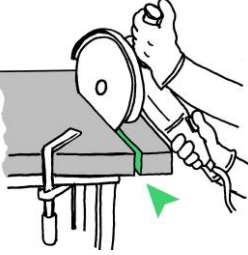

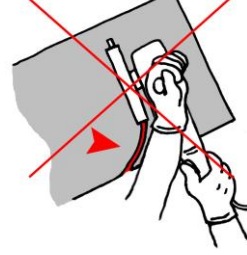

Every effort has been made to ensure that all information supplied in this leaflet is accurate and up to date. We cannot accept, however, responsibility for any error or omission, nor for any consequential loss or damage so arising (E & OE).
