# NORTON CLIPPER PRO SILENCIO BLADES

  
SAINT-GOBAIN

# PRO BETON SILENCIO

**\*LASER**

The Norton Clipper Pro Beton Silencio blade reduces noise by up to three times [-5 dB(A)] compared to conventional blades when used on an angle grinder thanks to a special steel core. It is specialised for use on reinforced concrete and building materials, helping you to cut quickly and efficiently in environments where noise and costs need to be kept to a minimum. The Norton Clipper Pro Beton Silencio blade features 12mm high segments for longer life.

MACHINES	Ø (mm)	BORE (mm)	SEGMENT H/W	ITEM No.	BARCODE
	230	22,23	12/2,6	70184602810	5450248741381

# PRO UNIVERSAL SILENCIO

**\*LASER**

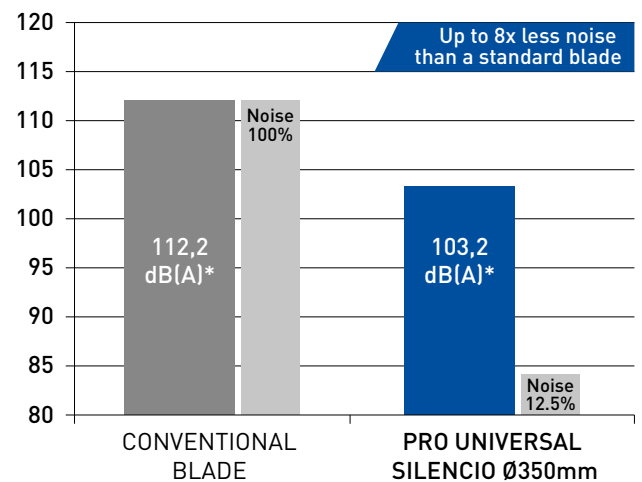

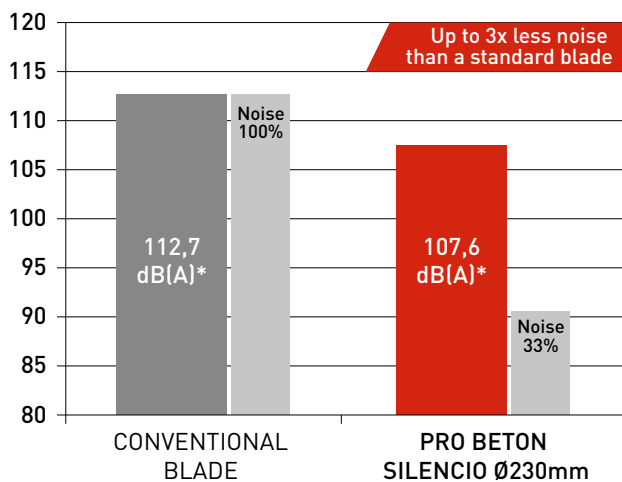

The Norton Clipper Pro Universal Silencio blade reduces noise by up to eight times [-9 dB(A)] compared to conventional blades when used with a masonry saw. Ideal for concrete, and building materials, it achieves a fast, efficient cut with limited noise for sensitive environments at a more economical cost when price is a consideration. The Pro Universal Silencio blade features 12mm high segments for longer life.

MACHINES	Ø (mm)	BORE (mm)	SEGMENT H/W	ITEM No.	BARCODE
	350	25,4	12/3,1	70184602811	5450248741398

For use on a masonry saw only
